**Zombie:** Haven't you watched any zombie movies? You cant move very fast. Go back 4 spaces.  
**Ghost:** All these ghost movies are terrible. When will they make a Paranormal Activity 40? Its your fault. Go back 4 spaces.

# Halloween – The Game

## Assembly:

Cut out the dice, the player pieces, and the cards. There are four pages that make up the playing surface. Lay them down on a table and tape them together to form one large board.

Fold and tape (or glue) the single dice into a dice shape.

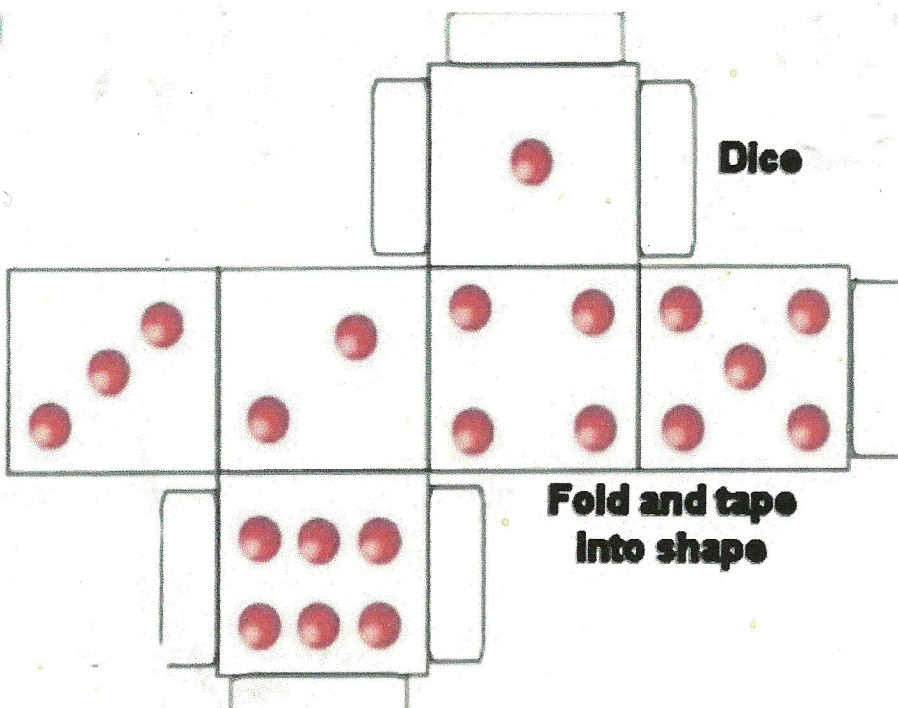

## Playing the game:

Object of the game: Arrive at the human to eat or kill it and you win. First player to the human wins.

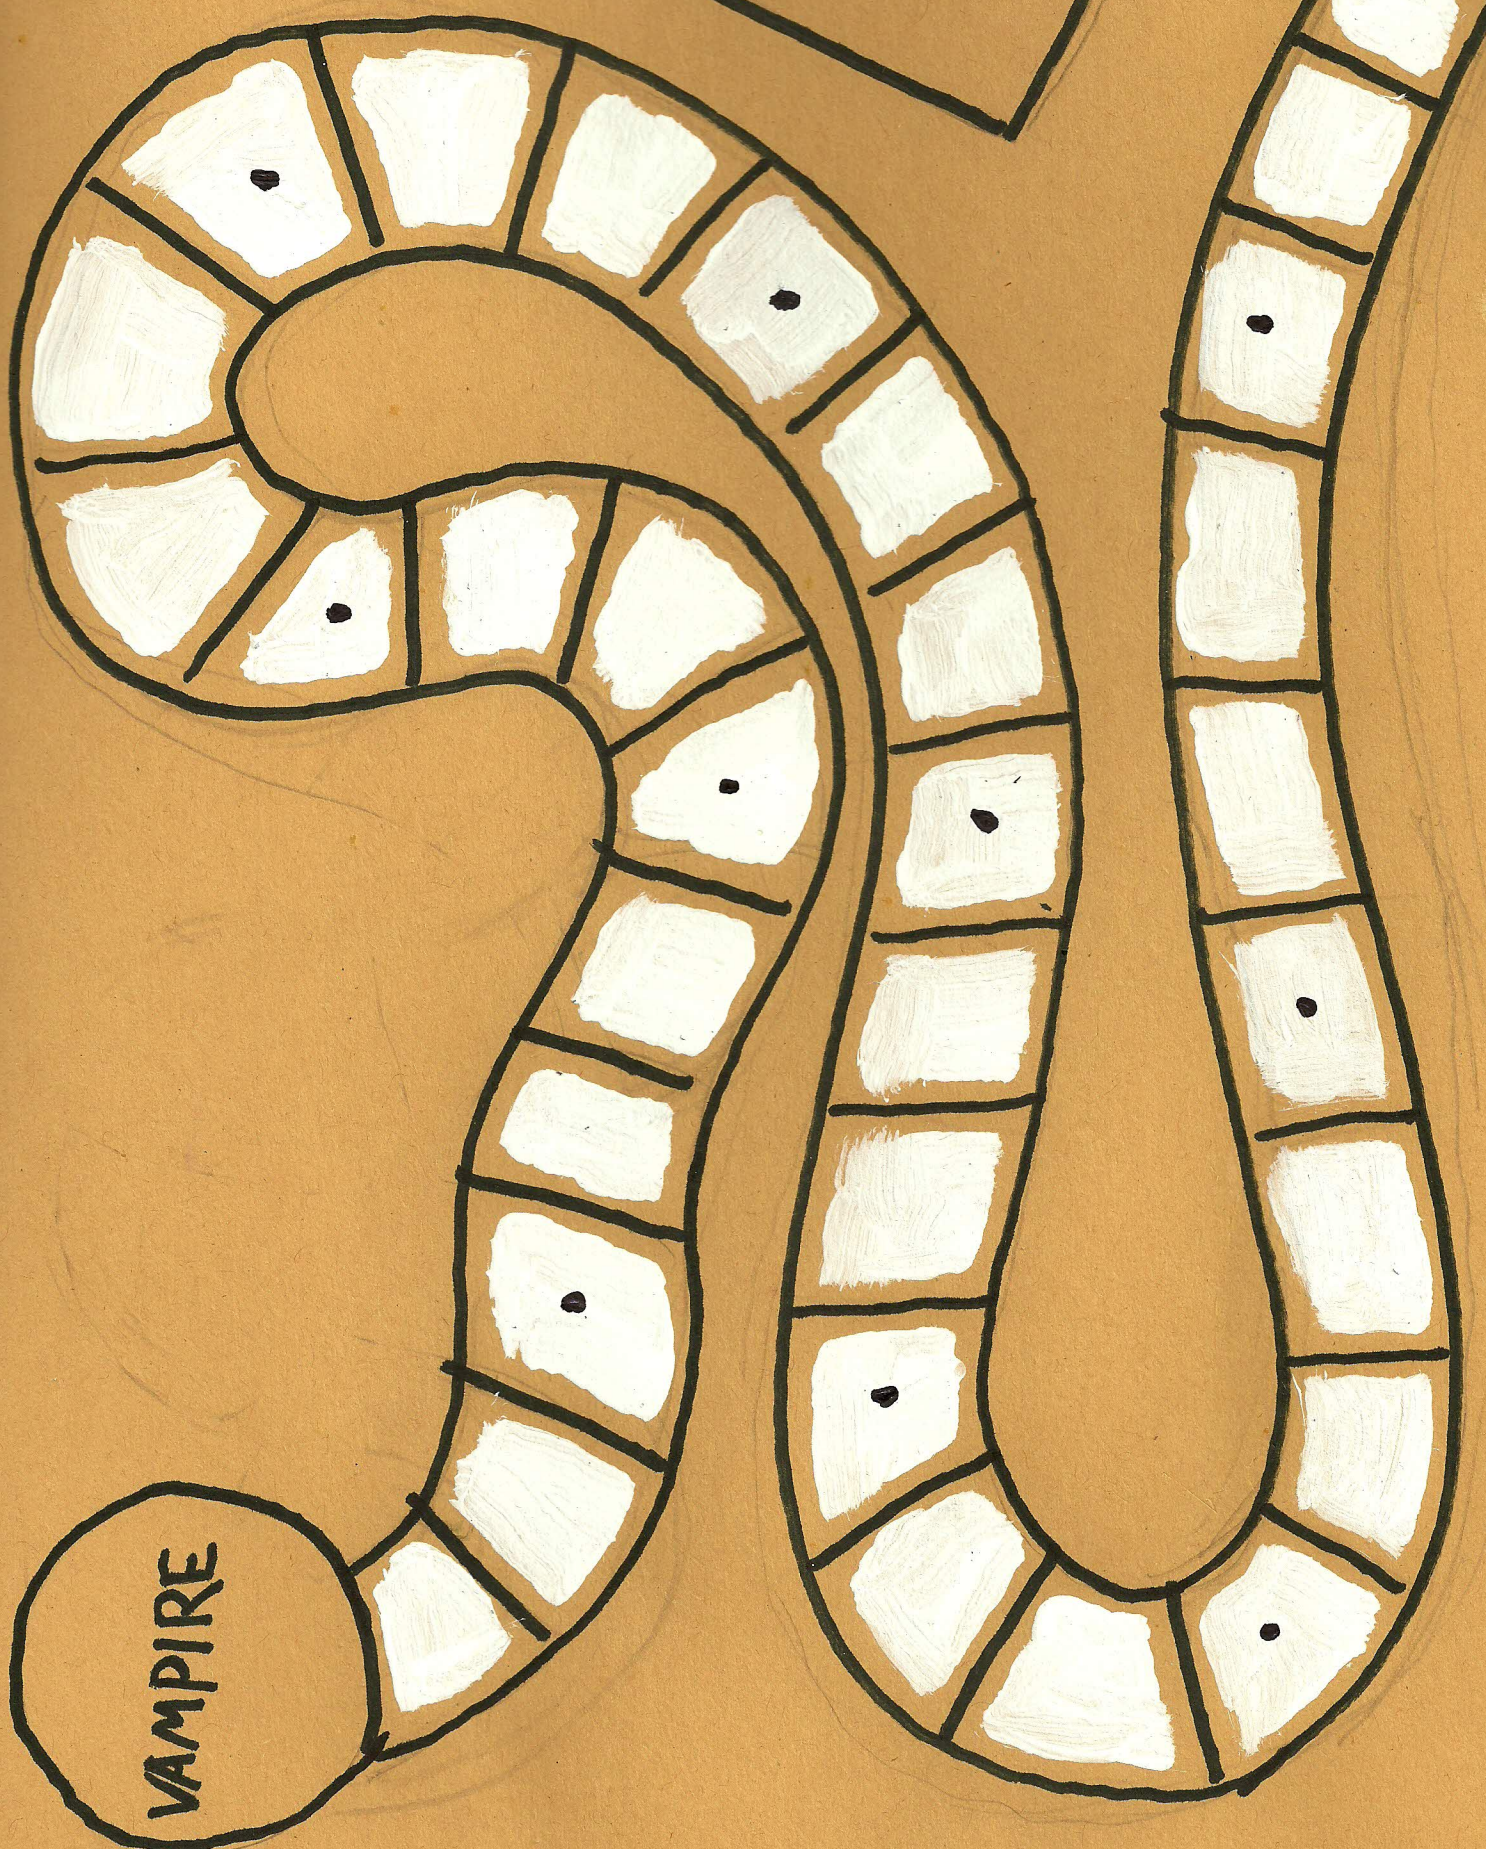

Two to four players. Each person picks a piece, either the vampire, the ghost, the werewolf or the zombie. Place your piece on the corresponding circle on a corner of the playing surface.

Take turns rolling the dice. Move that number of squares. If you land on a square with a dot then pick a card and do what it says. If you land on a square with no dot then you are safe. It is the next players turn.

If the stack runs out of cards then shuffle them and start them as a new stack.
