④

Put together a 1 and a 1
 Put together another 1 and 1
 Glue down a 2 and a 3 to one of those stacks
 Now Glue Both stacks together
 then glue 4 to the top, that's the top of the gun.
 Part 5 the trigger can be slid in after the
 assembly is complete

Drill a hole
And glue in a
dowel or pencil

It should stick out no more
than an inch.

Insert trigger
drill hole through it all
and run a wire through it all.
the wire acts as a hinge
can even be a paper clip.
