Complete instructions and sheets for building a paper Parthenon.

Thanks for checking out my paper Parthenon Project. I have lots of other paper projects on my website including how to make several different types of paper castles. www.stormthecastle.com

This project is located on my website at: www.stormthecastle.com/paper-castle/paper-parthenon.htm

YOUTUBE: I also have a youtube channel with lots of video projects including this paper Parthenon project: <http://www.youtube.com/user/epicfantasy>

Assembly Instructions

What you need to make this project:

- Two Empty Cereal Boxes
- Two Rulers
- Paints and Paintbrush (optional)
- Scissors
- White Glue
- Cellophane Tape
- This booklet

Some Assembly Tips and Notes:

There are five pages of parts for this paper Parthenon project. You should cut out the pieces and glue them down to the cereal box cardboard then cut the shapes out again.

I use a cotton swab to apply the glue evenly to the cardboard, then I place the cut out paper piece on it and press it down smoothly. The picture below shows how to do it.

Solid Lines - Solid lines are cut lines

Dotted Lines - These are fold lines. You do not cut them you fold along the line.

Tip for folding along dotted lines:

I use two rulers to make the fold nice and straight. The picture below shows you how I do it.

Step By Step Assembly

This assembly assumes you have already cut out and glued all the pieces to cardboard and now you have all the pieces ready for assembly.

1. Fold the base pieces so it looks like the base in the picture below:

2. Assemble the two pieces that make the inner building then glue them to the base.

3. Tape or glue the sides of roof to the base of roof:

4: Tape or glue the roof onto this so the roof unit is complete.

5: Secure the roof to the inner building by running glue along the top.

This is what it will look like:

6: If you haven't done it already you should cut out the spaces between the pillars on the four outer wall sections. Be careful and take your time with this. It can be a bit tricky to get it to look really nice.

7: Now glue all four sides (or tape) to the outer edge of the building. It will look like this:

8: You are now ready to paint! Have fun with the painting and thanks for building this project. If you send me a picture I will post it to my website! You can contact me by visiting my website at: www.stormthecastle.com

The following five pages are the pieces of the parthenon paper project. These are what you paste to cereal box cardboard then assemble.
